

# What is the Foundation?

We hope to provide:

- STEM Lab Specials Instructor for 2021-22, providing a *weekly* STEM lab special for each classroom, which reaches every student.
- STEM Lab supplies
- Classroom Enrichment/Teacher Grants – giving each classroom teacher money to use for their classroom.
- Spring Fun Run with thousands of dollars' worth of donated prizes

In the past, we've paid for:

- Laptop Computers
- Lego Wall
- Teacher Training such as Orton-Gillingham
- Weekly periodicals
- Academic software
- Second grade playground
- Installation of SmartBoards in every classroom
- Upgraded School Sound System
- Resurfacing gym floor with state-of-the-art court surface
- Installation of high quality playground mulch on the play areas
- Playground Equipment Repairs

We're asking for \$100 per family in the Fall and will run our exciting fundraiser in the Spring. This is voluntary but any amount is greatly appreciated and will reach every student at Rocky Mount with 100% of our profits staying with our school.

Please consider volunteering. It's a great way to contribute and get to know the school and other parents. Most of our officers have full time jobs. For more information, reach out to President Gretchen Arnold at [GArnold@gmail.com](mailto:GArnold@gmail.com).
